I want to say that I am very grateful to Pedro and Daniel. This is a late thank you. They are really dedicated and hardworking. I think they are like a magical combination with endless energy. The most important thing is that they have a positive and cheerful personality. Our furniture is really heavy. They are patient and careful, very sincere and kind. They worked hard until late that day, beyond the normal working hours, but they persisted. I am really touched, thank you for meeting such a good person in the moving company. They are the best service and highly recommend to everyone!

My experience with Gold Coast Premium Removals has been excellent from start to finish. Rick was very flexible in accommodating my requests. And the two men who looked after me on the day - Mat & Luca - were an absolute pleasure to deal with. They were careful with belongings, worked quickly, and were patient and helpful through to the end of a very long day. I can confidently recommend this company to look after you well.

These guys are such good value, easy to work with and speedy. When we arrived at the property I was moving into, there was no where close for them to park so they carried everything from the next street to my apartment without an issue. Really professional and friendly, I would highly recommend and will be using them again. Thank you 🙌🙌

Rick, Pedro and Dani are all friendly beautiful people and made my move smooth and enjoyable. They are quiet and professional. Showed up on time as well as doing such a large job on short notice for a decent price. I was actually underquoted for the job and even tho this came at extra costs, due to the fixed quote an previous conversation but unlike several other companies I used this one wrote the costs and took ownership of that mistake. That takes alot of courage and integrity to me. I'd use these guys again in a heart beat they are worth every penny.... thank you again guys. I appreciate you all

Thank you very very much! Best service ever! I met Rick to give me a quote on the move and he seemed very professional and competent. On the moving day two gentlemen from premium removals "Lineker and Igor" turned up early and did a great job. Very friendly people and very hard working. They had the job complete in the same time frame that Rick quoted and were an absolute pleasure to deal with. Lineker and Igor are worth their weight in gold. Ill always vouch for Ricks business in the future and will definitely use them again. Thanks heaps guys!! You did a great job! 🙌

Okay.. so I've had to edit this original review because it didn't let me review twice. So to add to what I've previously wrote. I have now used premium removalists for a second time and the service was just as good this time as it was the first time. Will continue to use you guys because you are the best! Thank you very much for your hard work, professional service and very fair price. You guys deserve medals 🏆

I can highly recommend Rick and Big to do your move. They're always smiling and positive, professional, punctual and helpful attitude. They're probably the best removalists in the Gold Coast. It's not always easy to find a reliable removalists like them.

Best Removalists I've had. We used Premium Removals last week to shift from our 3 bed home in Pimpama into storage place in Miami. Gus and Diego arrived on time, were very polite, friendly, very efficient and an absolute pleasure to deal with. Premium were recommended by our next door neighbours that had just shifted with them. We will be definitely using them again in 2 months or so. I've heard many of horror stories from people who had used other companies and I was so stressed before our moving date. However, my experience was the opposite from those stories. Polite, careful, very efficient and well priced - could not ask for more. Thanks for making my life easy.
